

The Picture of Dorian Gray

By Oscar Wilde

78889 Total Words

7401 unique words

The word “Dorian” was used as follows per chapter:

[41, 47, 66, 95, 70, 15, 73, 83, 54, 69, 97, 27, 55, 67, 29, 37, 15, 42, 32, 62]

It’s interesting that the protagonist’s name is slowly mentioned at the start and crescendos at chapter 4 and 11, which leads me to believe there is growing drama for the main character around those chapters.

“Yes, Dorian, you will always be fond of me”

– Chapter 6

“The sins of a strange to him to him to exhibit it was a serpent was the window. He is impossible?”
